

**NOTIFICATION OF INTENT TO INITIATE CLOSURE
PLANT DANIEL ASH POND B
MISSISSIPPI POWER COMPANY**

Mississippi Power Company (MPC) intends to close the CCR surface impoundment known as Ash Pond B located at Plant Daniel, which is located north of Moss Point, Mississippi. The surface impoundment is closing under the requirements of 40 C.F.R. 257.101(b)(1). Closure of the surface impoundment will be conducted under 40 C.F.R. 257.102(c), *Closure through removal of CCR*. The surface impoundment will be dewatered as required to facilitate excavation or dredging of ash for removal. All CCR will be excavated, transported, and disposed of in the Plant Daniel North Ash Management Unit permitted landfill. Closure will include removing all visible ash present over the existing HDPE liner. Free liquids within the surface impoundment will be routed through an on-site water treatment system before being directed to the facility's National Pollution Discharge Elimination System (NPDES) permitted outfall. The outfall is monitored in compliance with the facility's NPDES permit.

By signature below, certification is made that the closure of Plant Daniel Ash Pond B will be completed by removal of all CCR in the surface impoundment in accordance with the requirements of 40 C.F.R. 257.102(c).
